

3-5 Deleting and restoring pages

3-5.1 Deleting Pages

<http://www.websuburb.com.au/HelpDesk/Pages/Deleting/tabid/185/ctl/Edit/mid/1247/Default.aspx>

- Select the page to be deleted and then click on the Delete shortcut menu option in Page Functions.

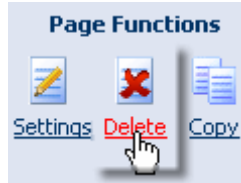

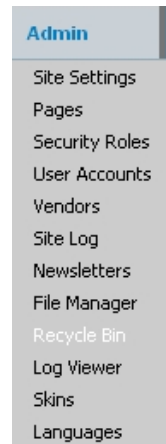

Figure: Delete page shortcut menu option

3-5.2 Restoring Pages

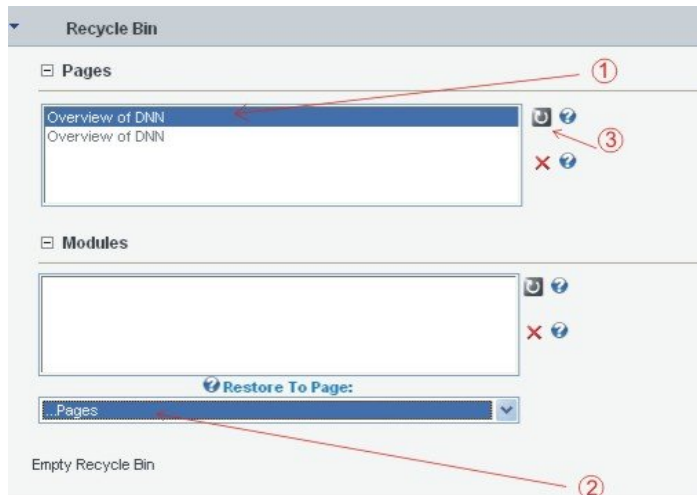

If a page has been deleted in error, it can be restored.

- Click on Admin in the Menu Bar and Select Recycle Bin.

- 1. Select the page to be restored
- 2. Select where it is to be restored to.
- 3. Click on Restore Selected Page
- The page will be restored to that point in the website.

Update your page.

The next step in the session 3 is Add Modules.
